

# Assessing disk performance with the iostat command vs iozone tool

iozone command line options `--u -R -i 0 -S 20480 -s 39g -l 1 -u 1`

Peak performance during initial write 516718 KBytes/sec (vs iozone measured 476585 KBytes/sec)

Peak performance during rewrite 521451 KBytes/sec (vs iozone measured 463266 KBytes/sec)
